Aftersales & Maintenance	28-29

Welcome.

For over 50 years, Audience Systems have been creating auditoria that our customers can be proud of.

Our products are designed and manufactured in the UK, and built to last. We regularly service seating that has been in place for 25-30 years or more.

We love making beautiful seats for theatres, lecture theatres and arts spaces. We are also renowned as a specialist in retractable seating, with thousands of installations worldwide – from school halls to entertainment venues. We embrace challenge and innovation, and take on complex projects that no-one else will.

We offer outstanding attention to detail even before you place your order, with free site visits and CAD layouts. Once you become a customer, you'll be looked after by our experienced projects and installation teams until you sign off your project. We're with you for life, and our aftersales team offer comprehensive annual inspections, parts, refurbishments and upgrades.

Of course, this brochure can only tell you so much. We'd welcome the chance to show you round our factory and showroom, or take you to view an installation of our seating. We'd love to show you the difference that our passion and dedication can make to a venue like yours.

The Swan Theatre, Royal Shakespeare Company, Stratford upon Avon, UK.

Wolverhampton Grand Theatre, UK.

Swan Theatre photo by Sara Beaumont © RSC

Our pedigree in the theatre world is unquestionable, with a client list that includes the Royal Albert Hall, The Royal Shakespeare Company and Glasgow Royal Concert Hall as well as venues worldwide. We can adapt our seating to fit the trickiest space, while delivering the quality and aesthetics that performing arts venues deserve.

"I found Audience Systems' engineering team to be superb... really really talented people, very flexible thinkers. This is hugely bespoke, extremely complex, with a lot of engineering required. They took it on, and the result speaks for itself."

*Elena Giakoumaki, Theatre Consultant, Charcoalblue, re The Roundhouse.*

"Working with the team, from sales to the drawing office to delivery went very smoothly. The experience has been a real pleasure from start to finish, and we really hope to continue the relationship into the future."

*Ben Ranner, Head of Technical Resources, The Royal Shakespeare Company.*

The Roundhouse, Camden, UK.

National Ballet School, Canada.

John and Judy Gay Library, Texas, USA.

Bay Pavilions, Bateman's Bay, Australia.

Schools & Community Venues

Schools & Community Venues

Whether for school halls, community theatres or sports facilities, Audience Systems have created thousands of flexible seating solutions for multipurpose venues the world over.

We work with our customers to create designs which match their aspirations, as well as their operational requirements and budgets – but we never compromise on build quality.

"[The seating] is superb and has made a vast difference to the quality of our assemblies, presentations and so on. The service from Audience Systems was excellent. I would very much recommend Audience Systems to other schools in the region."

*Chris Mantz, Principal,  
British International School, Riyadh.*

"Audience Systems provide the best service available in all aspects of their dealings with clients. Excellent experience - I would recommend Audience Systems to others seeking installations of this type."

*Peter Woods, Vice Principal,  
Holy Cross College, UK.*

# Lecture & Conference Venues

University of Warwick, UK.

Multipurpose Theatre, Singapore Sports Hub.

# Lecture & Conference Venues

Audience Systems' range of seating for lecture theatres and conference venues is durable, well built and elegant. Add retractable platforms, fold-away or continuous writing tablets, removable seats – whatever you need to make your valuable space work for you.

"Excellent; one of the best sub contractors that I have ever worked with. A very proactive approach to all areas of the installation."

Nick Rogers, Senior QS, Morgan Sindall re Larkhill Training Centre, UK.

"A fantastic experience - hope to work with Audience Systems again."

Andrew Sizer, Contracts Manager, Willmott Dixon, re University of Warwick, UK.

Budapest College, Hungary.

Bartlam library, Selwyn College Cambridge.

Bush House, King's College London, UK.

University of Southampton, UK.

For over 45 years, Audience Systems have worked with some of the world's leading arenas – so we understand the operational and financial pressures of running a major venue. We have earned a reputation for innovative, durable, and low maintenance seating solutions that also provide the comfort and style that modern audiences demand.

"We've had a great history with Audience Systems; not only have we used them here in Manchester, but also in Leeds. When they came to speak to us about replacing our seats, they also offered me the ability to add an extra 345 seats. If you multiply that by 120 shows, that gives us 40,000 additional seats to sell each year. We have the safest, most modern system we could ask for."

James Allen, General Manager, Manchester Arena.

"Our customers are delighted."

# Retractable Seating

Retractable seating allows venues of all sizes to achieve real flexibility. A school hall can double as a performance space, a lecture theatre can be transformed into an exam room, or an arena can be reconfigured for ice hockey, basketball or a rock concert.

Audience Systems have installed the TX Telescopic Platform System in hundreds of venues worldwide. Many are still in every day use after 25-30 years or more.

TX is available with Espace, Evolve, Eclipse, E-Form, Recital, Accolade, Zenith, Alpha or Campus Fold Down chairs, as well as our range of benches.

## Benefits of TX

Renowned for strength: built to meet or exceed international standards.

System design verified by independent structural engineers. Calculations available on request.

Designed for low maintenance and low lifetime cost.

Backed by Audience Systems' unparalleled engineering and customisation capabilities.

All-steel alignment system ensuring smooth, reliable opening.

Robust spring and gravity operated row locks, suitable even for use in earthquake zones.

Bolted structure constantly adjustable to ensure consistent lifetime performance.

Specifically designed to eliminate metal to metal contact, minimising wear and noise during use.

Can be provided for use during rock concerts, where the effect of synchronised crowd movement can be a concern.

Comprehensive service and maintenance package available.

Understructure guaranteed for ten years.

## TX System Types

### Fixed

Platforms stay in situ when closed.

### Recessed

Configured for storage in a recess or under a balcony.

### Mobile

Designed for storage in a separate location and transported on hydraulic trucks, air hover trucks, power trucks or a forklift.

### Travelling

Platforms are "driven" to their storage location using an integral motor.

### Further Adaptations

Tapered systems for corner locations.

Multiple row rises and depths for optimum sightlines.

Double depth system (two rows of chairs per platform) for rooms with low ceilings.

T-Access indents to provide integrated front row accommodation for wheelchair users.

Vomitory openings within telescopic structure.

## Operational Options

### Chair Fold-Down

Semi-automatic – chairs fold down automatically as platforms close, and are picked up by operatives in groups of up to fourteen.

Fully automatic – chairs are both folded down and picked up automatically.

Manual – chairs are folded down and lifted by operatives in groups of up to fourteen.

### Platform Opening and Closing

There are three methods of opening and closing our TX platforms:

An integral friction drive (operated by push-button hand controller).

Separate power trucks.

Removable manual pull handles.

A "partial opening" system can be fitted to allow operators to select how many rows will open.

Retractable Seating

Options and Accessories

Decks

Available with non-slip phenolic coating, carpet, or high specification wood-effect plank flooring.

Fascias

Decorative fascias to disguise the structure when closed, with removable sections in aisle positions.

Drapes and Panels

Cosmetic drapes and panels to disguise understructure and prevent access.

Lighting

LED aisle lighting systems with optional battery back-up.

Railing

Safety railing with a choice of inserts including steel tube, perforated steel panel and timber.

Side rails can be removable, telescoping ("self-storing") or folding. Front and rear rails are also available for seating units.

Plinths

Drop-in plinths for sound desks or wheelchairs.

Trolleys

Custom made trolleys can be supplied for storing and transporting removable rails and panels.

Retractable Seating

Dimensions Guide

H = (number of rows x row rise) + 2100mm.  
h = (number of rows x row rise) + 170mm.  
L = (number of rows x row depth) + 330mm. Half step depth = 1/2 x row depth.  
C/D = Row depth + 300–400mm depending on configuration.  
Please consult Audience Systems for exact dimensions.

Capacity Guide

The table below will help to quickly estimate how many rows and seats fit in a given width, height and length.

Unit width (mm)	H (mm)	2880	3140	3400	3660	3920	4180	4440	4700	4960	5220	5480	5740	6000	6260	6520	6780
	L (mm)	3275	4125	4975	5825	6675	7525	8375	9225	10075	10925	11775	12625	13475	14325	15175	16025
	No. rows	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18
	No. of seats																
3000	11	14	17	20	23	26											
4000	17	22	27	32	37	42	47	52	57	62	67	72	77	82			
5000	23	30	37	44	51	58	65	72	79	86	93	100	107	114	121	128	
6000	29	38	47	56	65	74	83	92	101	110	119	128	137	146	155	164	
8000	41	54	67	80	93	106	119	132	145	158	171	184	197	210			
10000	53	70	87	104	121	138	155	172	189	206	223	240	257	274	291	308	
12000	62	82	102	122	142	162	182	202	222	242	262	282	302	322	342	362	
14000	70	92	114	136	158	180	202	224	246	268	290	312	334	356	378	400	
16000	82	108	134	160	186	212	238	264	290	316	342	368	394	420	446	472	
18000	94	124	154	184	214	244	274	304	334	364	394	424	454	484	514	544	
20000	106	140	174	208	242	276	310	344	378	412	446	480	514	548	582	616	
22000	118	156	194	232	270	308	346	384	422	460	498	536	574	612	650	688	
24000	130	172	214	256	298	340	382	424	466	508	550	592	634	676	718	760	
26000	139	184	229	274	319	364	409	454	499	544	589	634	679	724	769	814	
28000	151	200	249	298	347	396	445	494	543	592	641	690	739	788	837	886	
30000	163	216	269	322	375	428	481	534	587	640	693	746	799	852	905	958	

Note: Every circumstance varies and this table makes certain assumptions:  
Chair Width = 500mm | Row Rise = 260mm | Row Depth = 850mm  
Units up to 12000mm wide include one aisle, units above 12000mm wide include two aisles.  
For an accurate estimate, please contact one of our sales team.

Matrix system with fixed seating behind (City Hall Glasgow, UK).

Matrix system (O2 City Hall Newcastle).

O2 City Hall Newcastle photo by Jim Ellam © Academy Music Group

Removable chairs are ideal for flexible venues – from community theatres to arenas. They can also be used to add extra capacity in front of a retractable system, or to create adaptable seating areas suitable for wheelchair users.

Matrix Seating System

Matrix is a quick, simple and compact removable seating system. Groups of chairs are slotted into a “matrix” of floorbars, with no floor fixings required. Both chairs and floorbars can be stored and transported on trolleys or stillages.

Matrix is available with Espace, Evolve, Eclipse, Accolade, Zenith, Alpha and Campus Fold Down chairs.

Matrix System Benefits

- Fast turnaround times.
- Chairs grouped on beams, reducing handling.
- Compact and straightforward storage and installation.
- Wide walkways in front of vacated chairs.
- Rigid rows with no moving or snaking.
- Low leg count for fast, easy cleaning.
- Free from trip points with no floor fixings required.
- Chairs can exactly match those in retractable or fixed areas.

Stacking Chairs

Our “Venue” stacking chairs are specially designed to complement other upholstered chairs in our range. All are available with side-to-side and/or front-to-back linking, and with storage and transportation trolleys.

Matrix system installation (Royal Albert Hall, UK).

Venue 100 stacking chairs (Speyside High School, UK).

Matrix system (Wilton's Music Hall, London, UK).

Venue 128 stacking chairs (Derby Arena, UK).

# Staging & Tiering

## Fixed Tiering

We can provide a complete solution to fit out your auditorium or lecture theatre, with our robust, adaptable fixed tiering system.

### Features

- Powder coated steel understructure.
- High specification 25mm VBP plywood decks.
- Euro code compliant.
- Independently structurally verified.

### Options

- Custom designed layout to perfectly fit your space.
- Choice of finishes, carpets and trims.
- Options include side rails, access hatches, side panels and access steps.
- Additional customisations available on request.

## Modular Stages

A range of robust modular stages with fixed height legs, adjustable height legs or height adjustable scissor legs. The modules can be easily joined to make flexible staging arrangements or tiers for seating. When out of use, they can be transported and stored on specially designed trolleys.

### Features

- Excellent load capacity (750kg/m<sup>2</sup> for most models).
- Deck thickness of at least 22mm.
- Adjustable up to 4m high (1m for scissor leg models).
- Manufactured in Germany by our partner Trenomat.

### Options

- Choice of deck finishes, including outdoor options.
- Available in 2 x 1m, 1 x 1m or 2 x 0.5m modules; custom shapes and sizes available on request.
- Range of accessories including stairs, access ramps, safety rails, transport trolleys, skirting and side panels.

# Staging & Tiering

## Airstage

Airstage is a hydraulically operated stage system which can be lifted almost effortlessly to the desired height. The system requires no heavy manual handling, as it is stored in a shallow pit below floor level, with the deck flush with the floor when not in use.

Airstage is a highly flexible stage system, which can also be used alongside, or as an alternative to, retractable platforms to form tiering for seats.

### Features

- Sturdy aluminium frame.
- Gas spring assisted height adjustment via removable handles (around 30 seconds per module for two people).
- Exceptional weight bearing capacity of up to 750kg/m<sup>2</sup>.
- 25mm deck as standard.

### Options

- Choice of deck finishes, including anti-slip options and deck to match your flooring.
- Available in 2 x 1m modules as standard; custom shapes and sizes available on request.
- Range of accessories including stairs, access ramps, safety rails, skirting and side panels.

## Motorised Stages

Our motorised stages are of an exceptionally sturdy steel construction. Like the Airstage, they are housed in a shallow pit below floor level and are lifted into place via a control console or computer.

### Features

- Heavyweight steel frame.
- Ability to create preset heights or whole room layouts.
- Choice of sizes.

### Options

- Range of accessories including stairs, access ramps, safety rails, skirting and side panels.

Airstage.

## Espace 628 Multipurpose Evolve Multipurpose

Espace is our most popular family of seats. This versatile design is based on our classic tipping mechanism – when the seat is vacated, the seat, back and arms swing into an upright position to form a neat, space-efficient closed profile.

Evolve is a variation on the Espace design, with squared corners to the upholstery.

### Features

Spring-free gravity tip mechanism and auto-tip armrest.

Small closed envelope creating wide, safe walkways when vacated.

Most variations achieve the highest grade of the British and European strength standard BS EN 12727:2000.

### Options

Plastic or timber protection panels for outer back and under seat.

Anti-panic individual writing tablet (Espace 628T / Evolve T).

High backrest.

Thick pocket sprung “concert” seat for long term seated comfort.

Upright geometry version for high tiers.

Fixed back variation for more traditional auditoria.

### Applications

Retractable.

Removable (“Matrix”).

Tread or riser fixed.

**E-Form** Multipurpose  
This beautifully contoured and comfortable auditorium chair is designed specifically for retractable platforms. Each seat is mounted on its own individual mechanism, reducing vibration across the row of seats. Each member of your audience can truly feel like they are in their own space.

**Options**  
Fabric or timber armrests.  
Decorative timber to rear of back or under seat.  
Upright geometry version for high tiers.

**Applications**  
Retractable.  
Tread or riser fixed.

**Eclipse** Multipurpose  
Eclipse has all the features of Espace, with an extra dash of elegance.

**Features**  
In addition to all the advantages of the Espace, Eclipse offers:  
Sharp stitch details on seat and back.  
Timber outer back and shaped timber arm.  
**Applications**  
Retractable.  
Removable ("Matrix").  
Tread or riser fixed.

**Recital** Multipurpose  
A fully featured auditorium chair. Uniquely, it will also fit on retractable platforms with a row rise of as little as 280mm.

**Features**  
Designed for comfort with good lumbar support.  
Dampened spring tip mechanism for smooth, silent operation.  
Show wood end panels, even on retractable model.  
Complies with the strength standard BS EN 12727:2000 level 4.

**Options**  
Curved timber panel to outer back and/or under seat.  
Fold-away writing tablet.

**Applications**  
Retractable.  
Tread or riser fixed.  
Stacking.

**Accolade** Multipurpose

A stylish and durable all-rounder which achieves the highest grade of the British and European strength standard BS EN 12727:2000.

**Options**

Plastic protection panels for outer back and under seat.

ABS or timber armrests.

“CC” version with thick, pocket sprung seat and contoured timber armrests.

**Applications**

Retractable.

Removable (“Matrix”).

Tread or riser fixed.

Rail mounted (straight or curved).

With armrests  
(Holy Cross College, Bury, UK).

Fully upholstered version  
(Our Lady of Sacred Heart College, Australia).

Fully upholstered Accolade CC.

Plastic seat and back covers  
(Manchester Area, UK).

Plastic back covers (Swansea Arena, UK).

**Benches** Multipurpose

For space-saving simplicity, Audience Systems offers a range of timber, plastic and upholstered benches for our retractable system. The upholstered bench has an optional folding backrest available in two depths.

Chorus Bench  
(Fulton Central Library, Georgia, USA).

Chorus Bench  
(Fulton Central Library, Georgia, USA).

Chorus Bench - folding back  
(Narre Warren South P-12 College, Australia).

Contour Bench  
(Dunman High, Singapore).

Duet Bench  
(Jade Harrison School of Dance, UK).

# Chair Guide

## Icon Auditorium

Designed and tested for comfort, and featuring a whisper-quiet soft tip mechanism, Icon's design can be easily adapted to suit the needs of your venue.

### Features

Smooth soft tip action.

Multiple options for customisation.

Designed to comply with the strength standard BS EN 12727:2000 level 4.

### Options

Choice of backrest designs.

Fully upholstered or timber armrests.

Fully upholstered or timber end panels.

Additional customisations available on request.

### Applications

Tread fixed.

# Chair Guide

## Scholar Lecture theatres

Scholar is a completely flexible and robust seating system suitable for nearly every lecture theatre – straight or curved. Seat widths and back heights vary to perfectly fit any space. The writing tablet can be finished to meet each client's requirements for design and durability.

### Options

Choice of seat shapes and specifications.

Resilient wrap-around plastic protection panels for seat base.

Timber panels for seat base or chair back.

Backrest contouring and/or lumbar support.

Stitch details for backrest.

Extended backrest height to overtop writing tablet.

### Applications

Tread or riser fixed.

## Campus & Campus Fold Down Lecture theatres

The Campus system combines comfortable individual seats (usually "Accolade" model) with a continuous writing tablet. The fold down version can be used on retractable platforms; the writing tablet folds down to form a fascia along the front of the closed seating unit. An ideal product for multipurpose spaces in universities.

### Options

Seats and backs available with or without plastic protection panels.

Choice of finishes for writing tablet.

### Applications

Retractable.

Removable ("Matrix").

Tread or riser fixed.

Zenith & Alpha

Multipurpose

A choice of ergonomically contoured chair designs in blow moulded, UV stabilised, high density polyethylene. Both chairs satisfy the requirements of the British and European strength standard BS EN 12727:2000 – Alpha to level 3 (General) and Zenith to level 4 (Severe).

Options

- Armrests.
- Upholstered “onsert” pads.

Applications

- Retractable.
- Removable (“Matrix”).
- Tread or riser fixed.
- Rail mounted (straight or curved).
- Zenith only*

Zenith (Huddersfield Leisure Centre, UK).

Alpha (Beacon of Light, Sunderland, UK).

Polaris

Multipurpose

Our flexible Polaris seat combines the comfort of a chair with the space efficiency of a bench. It requires zero set-up on retractable platforms - the backs fold down automatically as the platforms close, and spring back into place as they open.

Options

An alternative model is available which can be specified with armrests or cupholders. Its backrest is folded down manually.

Applications

- Retractable.

A selection of our installations from around the world.

Audience Systems provide aftersales care and customer service to a level unmatched in the industry.

Annual Servicing & Parts

Especially in the case of retractable seating, any responsible manufacturer will recommend annual service inspections. These help venues to ensure audience and staff safety, comply with insurance requirements and meet building regulations.

Audience Systems offer:

Knowledgeable and experienced engineers.

Access to genuine replacement parts.

Manufacturer's safety certificate (once any safety-critical work required is complete).

Multi-year contracts at a discounted rate.

We can also provide servicing and replacement parts for other manufacturers' seating.

Emergencies

In case the unexpected happens, we issue customers with a 24-hour call-out telephone number.

Refurbishment

Our comprehensive refurbishment package will make your seating look visibly new again. Your refurbishment package may include:

Replacement or re-upholstery of seating.

Specialist cleaning.

Re-finishing such as replacing trims or freshening up powder coating on rails.

Replacement of understructure components.

We can refurbish seating from most manufacturers, subject to survey.

Upgrades & Ancillaries

We can offer a range of upgrades and ancillaries for all kinds of seating. These include:

Addition of power operation to a retractable system.

Additions to a retractable system to allow it to be safely used with not all rows open.

Ancillary items for retractable systems such as drapes, panels, hydraulic trucks for movement and aisle illumination.

Ancillary items for chairs such as seat numbers, row letters or gas dampers.

Trolleys for rails, aisle infills, matrix system or stacking chairs.

Upholstery

Audience Systems has its own upholstery business, Audience Upholstery Ltd.

As well as carrying out upholstery and refurbishment work for Audience Systems, Audience Upholstery also carries out sub-contract upholstery for other furniture manufacturers, as well as re-upholstery for venues such as restaurants, bars and hotels.

Call Audience Systems' aftersales team on the number below to find out more.
